

4th International Epilepsy Colloquium

27-30 June 2011, Marburg

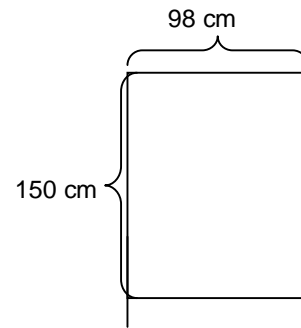

Poster Instructions & Time of Presentation

The pre-requisite for a successful poster is good visual presentation, so that your work arouses interest! This can best be achieved by observing the following guidelines:

1. The maximum poster measurement is: **width: 98 cm; height: 150 cm**

2. We suggest you design your poster layout in the following sections:

- Title, author, address (on the upper edge, across the width of the whole poster)
- Introduction and Purpose
- Methods
- Results
- Conclusions

3. The title should be emphasised by the use of a bold type face. This writing should be easily readable at a distance of 2 – 3 meters.

4. The text can be broken up by the inclusion of drawings and/or photos. The use of colour makes the poster more effective and attractive.

5. To promote your work we suggest you bring handouts for distribution to interested delegates.

6. Time of Presentation:

Date of Poster Session	Session Time	Poster Mounting	Poster Removal
Tuesday, June 28, 2011	12:30h - 13:30h	Monday, June 27, 2011 from 08:00h	Thursday, June 30, 2011 until 16:30h

Posters will remain hanging during the whole conference.

For your exact **poster number** please refer to the Final Scientific Program available at the congress website beginning of April 2011.
